

# Tattoo Aftercare

1. Take your bandage off in two hours. Clean your tattoo with warm water and liquid soap. Do not use a wash cloth or loofa pad, just soap and your fingertips. In the shower make sure you wash your tattoo last and be sure to rinse all the soap off.
2. Pat the tattoo with a clean, dry towel, then let air dry for 10-15 mins.
3. With clean hands, apply a Thin/Even amount of Aquaphor. Apply after each wash and once or twice in between washes. Always apply ointment with clean hands.
4. Repeat steps 1-3 once in the morning and once at night for the first 3-4 days.
5. After 3-4 days of using Aquaphor, the tattoo will start to peel and flake (DO NOT PICK OR SCRATCH THE TATTOO) Switch to a fragrance free body lotion (Aveeno, Lubriderm, Curel, etc) Continue to moisturize for two more weeks.
6. Keep out direct sunlight for at least two weeks. (including tanning beds) After the tattoo is healed use sunblock to protect your artwork.
7. Do not submerge the tattoo into water for at least two weeks. (swimming, bathtubs, jacuzzi's etc.)
8. DO NOT PICK OR SCRATCH THE TATTOO. Always use spf 30 or higher after the tattoo is healed

Stop back after your tattoo is healed for a check up on how everything healed. If a touch up is needed, We can schedule an appointment accordingly. We hope you enjoyed your visit at Vision Burn Tattoo, Be sure to like us on Facebook and follow us on Instagram. If you have any questions during the healing process, feel free to call or stop by.
